Chip, I have reviewed the draft ROD and Paul Seidel is now reviewing the risk portion. I have comments and will compile Paul's with mine when he is done. I am out of the office tomorrow but will be in Monday. If you are able to forward the figures by then I can look at those. If you can't send them email, I could try to stop by Monday early afternoon to pick them up.

I will also be working on the state concurrence letter Monday.
